## **FOCUS QUESTION #2: The Cay**

In last week's Socratic Circle, we discussed Rodgers and Hammerstein's viewpoint that people are taught to fear and hate those who are different from them. You know that prejudice means to "pre-judge" people without knowing all the facts about them. How do these two things compare to how Philip was raised at home?

### *Focus Question Format:*

1. Write a sentence that restates the prompt and begins to answer the question.
  2. Write several sentences in your own words supporting your answer using evidence from the book.
  3. Use at least one quote. Make sure you introduce your quote (On p.8, it says, ...")
  4. Conclude with a sentence or two summing up what you said.
